DELICIOUS APPLE

APPLE TREES

2 yr. 4 to 5 ft.: 40c each; $3.50 for 10; $30.00 per 100
2 yr. 5 to 6 ft.: 50c each; $4.50 for 10; $40.00 per 100

BALDWIN. Large, deep red, juicy, crisp, productive. Good keeper. One of the best winter apples for northern sections.

DELICIOUS. Winter apple. Keeps well. Color red and yellow, fine grained and quite juicy, slightly acid. Is really delicious.

GRIMES GOLDEN. Very large, skin golden yellow, flesh tender and crisp. A very good fall apple. Grown in all sections.

STAYMAN'S WINESAP. Keeps well to May. Large in size, fine appearance, good flavor, juicy and crisp; red.

WINESAP. Medium to large size. Red; flesh yellow, firm, crisp, with rich flavor, quality very good. November to May.

GRAPE VINES

Fruiting size plants: 25c each; $2.00 for 10; $10.00 per 100

CATAWBA. Ripens late. The bunches and berries are medium in size and red in color. A very good grape.

CONCORD. The most popular black grape. Bunches large and compact. Skin is tender, juicy and sweet. Very productive.

MOORE'S EARLY. Deep black. Ripens about two weeks before Concord. Large and of best quality. A profitable variety for either home or market use.

NIAGARA. White. Clusters large and compact; berry large, amber white with white bloom; thin skin, tender, sweet and luscious. Ripens in midseason with Concord.

WORDEN. Blue-black. Vine moderate grower; grapes very large, thin skin, very fine flavor. One of the earliest, ripening about ten days before Concord.

CACO. This is a wonderful grape. Wine-red with abundant bloom; berries large, bunches medium in size, compact and of good form. Ripens just a little earlier than Concord. Strong vines 50c.

Evergreens

The increasing popularity of evergreens in plantings is here to stay for no other plants offer such all the year round beauty as do they. Their variety of color, texture and habit of growth affords ample opportunity for creating different effects for moulding the planting to fit the house and grounds.

You will find all our evergreens first class in every way and the prices are very reasonable. It may be possible for you to come and see the stock. If so, we will be pleased to have you come and see the stock as it grows in our nursery. No doubt the trip will be both interesting and profitable. We are growing over 80 acres of good nursery stock—a good many items that are not listed on this little folder.

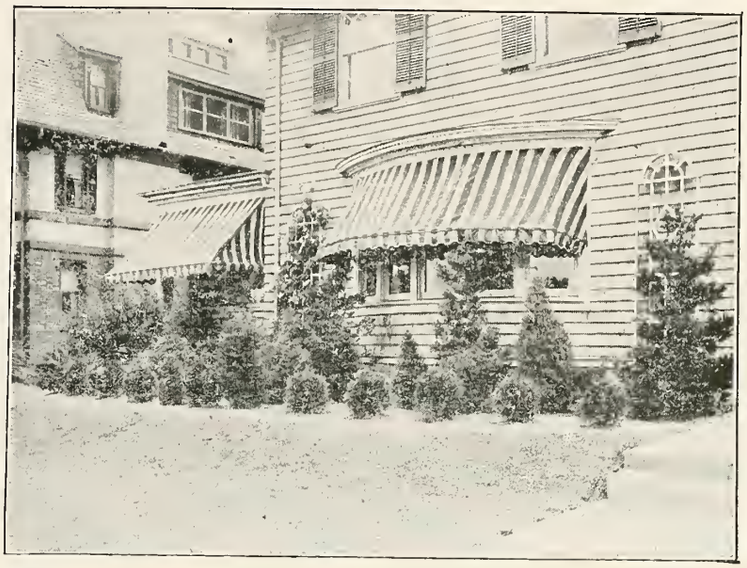
Real Bargains

ve man and woman is discussing, planning and doing. It is a subject not considered finished unless it is planted. At the same time it is **ng adds $100.00 in value to your property.** All real estate men know perty for sale. Our ornamentals are wonderfully fine stock, and in k. So a complete planting costs you but little. **We will gladly send** of the location and measurements of buildings, drives and present big improvement can be made at a little cost. Do not wait.



The above picture shows how beautiful a few dollars spent in the right kinds of shrubs and evergreens can make a place. If you do not know just what to plant and will send us a rough sketch of your house and grounds we will make suggestions and plans for you

Shrubbery

For the modest home, the cottage or summer place, flowering shrubs with their wealth of color are all that can be desired. Inexpensive and easy to care for, adapted to most all soils and conditions, they are very satisfactory for general planting. While evergreens are more to be desired for permanent winter effect and greater richness of foliage the flowering shrubs will always be in favor for their lovely and fragrant flowers.

Prices of the following Shrubs unless otherwise noted, 2 to 3 ft. 50c each; $4.50 for ten

SCOTCH BROOM. Broom-like foliage, green all year round. Covered with yellow flowers during June.

CRAPE MYRTLE. The favorite old-time flower of our grandmother's garden. 18-24 in. 50c; 3-4 ft. $1.00.

RED FLOWERING DOGWOOD. One of our most beautiful flowering shrubs. Rose-pink flowers in May and June. 2-3 ft. $2.50.

WHITE FLOWERING DOGWOOD. Red branches and beautiful large white flowers in May and June. 18-24 in. 75c; 2-3 ft. $1.

SPIREA, ANTHONY WATERER. Dwarf, dense pink. 2 yr. 50c.

CYDONIA JAPONICA (Japanese Quince). The old favorite May blooming shrub. Red flowers.

DEUTZIA GRACILIS. Dwarf, fine for border planting...Pure white flowers in June. 15-18 in. 50c.

FORSYTHIA, VIRIDISSIMA. Bell-shaped yellow flowers in May before leaves appear. Green twigs.

HYDRANGEA, MAURICE HAMAR. Flowers a delicate flesh pink , sometimes blue. Strong plants 50c.

HYDRANGEA, OTAKSA. Flowers blue. Blooms in great profusion all summer. Strong plants 50c.

LILAC, MARIE LEGRAYE. One of the best of the white varieties. Strong 2 yr. 50c.

DEUTZIA PRIDE OF ROCHESTER. Double white flowers in June. Abundant bloomer. Very pretty.

DEUTZIA WATERI. Similar to above except bloom is a beautiful pink. Tall growing and beautiful.

HYDRANGEA, P. G. Flowers white. Blooms from early August until freezing weather. Very popular.

LILAC, CHARLES X. Purplish-red flowers. The best of the standard purple lilacs. Strong 2 yr. 50c.

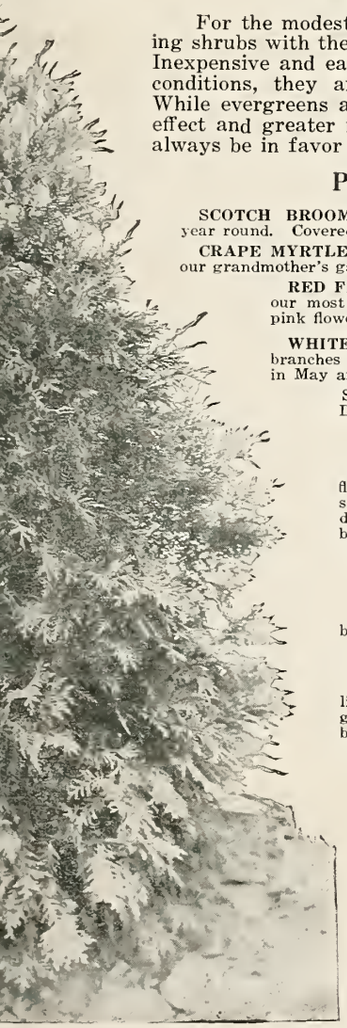
Smith** flesh colored pink, **Lady Hillingdon** beautiful apricot yellow.

GOOD STOCK IS IMPORTANT

The matter of buying your plants and trees may look like a small matter, but it is an important job because so much depends on the right kind of stock. No matter how valuable your land—no matter how much you weed, dig, hoe or cultivate—no matter how deep you plow—how well you disc and harrow or rake—no matter how much the sun shines, or how much rain you get—or how much you irrigate or water your garden—no matter how ideal the weather conditions may be or how much you fertilize or manure the soil—and every one of these things represent real money—they are all lost—all wasted—all your efforts count for nothing if in the first place you do not have the right kind of plants and trees to put in the soil.

If it is possible we will indeed be pleased to have you come and see stock. We are growing over 80 acres and a good many items not listed here for lack of room.



ical American Arborvitae. They rowing over ten thousand of this e can be used in many places: as her plants and is much used for l and is hardy in all sections.

or American Arborvitae.

	Each	10	100

2 to 3 ft.	2.00	17.50

We are making a special request that each one who receives this folder send us an order, even if only for a small amount. We are so sure our stock will please you that we believe you will send us your future orders. We realize there is no advertisement like a satisfied customer. We are looking for satisfied customers and shall try hard to satisfy you.

Evergreens

The increasing popularity of evergreens in plantings is here to stay for no other plants offer such all the year round beauty as do they. Their variety of color, texture and habit of growth affords ample opportunity for creating different effects for moulding the planting to fit the house and grounds.

You will find all our evergreens first class in every way and the prices are very reasonable. It may be possible for you to come and see the stock. If so, we will be pleased to have you come and see the stock as it grows in our nursery. No doubt the trip will be both interesting and profitable. We are growing over 80 acres of good nursery stock—a good many items that are not listed on this little folder.

The above picture shows a typical American Arborvitae. They are one of our specialties—we are growing over ten thousand of this variety alone. American Arborvitae can be used in many places: as a specimen plant, mixed in with other plants and is much used for hedges and windbreaks. Grows well and is hardy in all sections.

Note the following low prices for American Arborvitae.

	Each	10	100
12 to 18 inch. Specimen plants	$0.60	$5.00	$40.00
18 to 24 inch. Specimen plants	1.00	8.00	70.00
2 to 3 feet. Specimen plants	1.50	13.50	125.00
3 to 4 feet. Specimen plants	2.25	20.00	175.00

Prices on larger sizes quoted on requst.

Shrubbery

For the modest home, the cottage or summer place, flowering shrubs with their wealth of color are all that can be desired. Inexpensive and easy to care for, adapted to most all soils and conditions, they are very satisfactory for general planting. While evergreens are more to be desired for permanent winter effect and greater richness of foliage the flowering shrubs will always be in favor for their lovely and fragrant flowers.

The above picture shows how beautiful a few dollars spent in the right kinds of shrubs and evergreens can make a place. If you do not know just what to plant and will send us a rough sketch of your house and grounds we will make suggestions and plans for you

Prices of the following Shrubs unless otherwise noted, 2 to 3 ft. 50c each; $4.50 for ten

SCOTCH BROOM. Broom-like foliage, green all year round. Covered with yellow flowers during June.

CRAPE MYRTLE. The favorite old-time flower of our grandmother's garden. 18-24 in. 50c; 3-4 ft. $1.00.

WEIGELA ROSEA An abundance of bright rose colored flowers in June. One of the best rose colored flowers blooming at this time.

SPIREA VAN HOUTTE. Tall with long slender branches that droop with their foliage and flowers. White flowers in May.

Irish Juniper below

CALIFORNIA PRIVET

California Privet is one of the leading hedge plants and undoubtedly the most largely planted of them all; its foliage is the deepest, richest green, almost an evergreen; does not shed its foliage until late winter and then only in exposed positions. Can be shaped in any form desired by shearing. Set plants 6 in. apart in row.

Prices of California Privet

	10	100	1000
6 to 12 in.	$0.25	$2.00	$15.00
12 to 18 in.	.40	3.00	20.00
18 to 24 in.	.50	3.50	25.00
2 to 3 ft.	.60	4.00	30.00

GOLDEN CALIFORNIA PRIVET

Similar to above but leaves are a beautiful green and yellow in color. Very fine.

6 to 12 in. bushy	$1.00 for 10
12 to 15 in. bushy	2.00 for 10
15 to 18 in. bushy	2.50 for 10
18 to 24 in. bushy	3.00 for 10

GOOD STOCK IS IMPORTANT

The matter of buying your plants and trees may look like a small matter, but it is an important job because so much depends on the right kind of stock. No matter how valuable your land—no matter how much you weed, dig, hoe or cultivate—no matter how deep you plow—how well you disc and harrow or rake—no matter how much the sun shines, or how much rain you get—or how much you irrigate or water your garden—no matter how ideal the weather conditions may be or how much you fertilize or manure the soil—and every one of these things represent real money—they are all lost—all wasted—all your efforts count for nothing if in the first place you do not have the right kind of plants and trees to put in the soil.

If it is possible we will indeed be pleased to have you come and see stock. We are growing over 80 acres and a good many items not listed here for luck of room.

If you are bothered about your planting—do not know just what to plant or other troubles, let us help you. Send plan of your house and grounds for planting plans and prices, etc.

THE TINGLE NURSERY CO., PITTSVILLE, MARYLAND

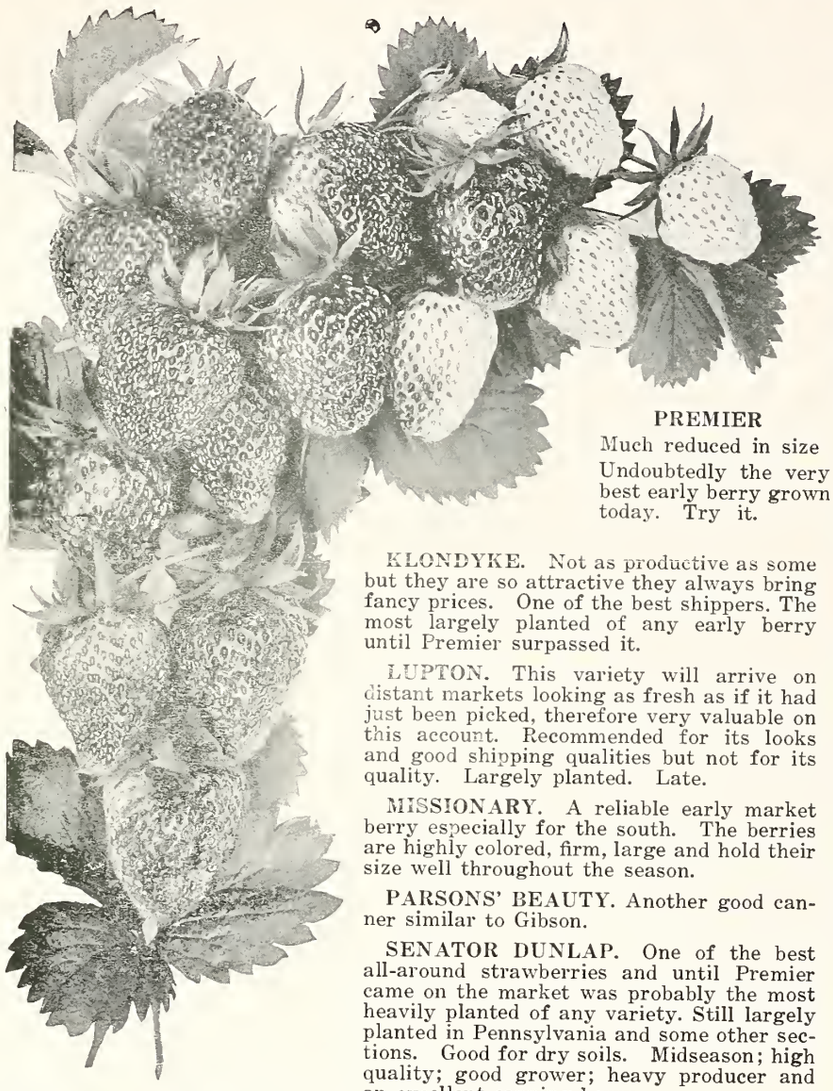
Strawberries

Are a Paying Crop

Again Last Summer Strawberries Made Money

They Do It Every Year—You Can Depend On Them

Right now when nearly all kinds of fruit are making money—Strawberries are doubly profitable. They bring a full crop only one year from planting, are easy to grow on any good soil, require no expert care and pay big returns on a small space of ground. They bear full crops for two or three seasons. We know of no other crop that will pay as well.



PREMIER
Much reduced in size
Undoubtedly the very best early berry grown today. Try it.

PREMIER Undoubtedly The Best Early Strawberry

This is undoubtedly the very best early berry of them all and a real money-maker for the market gardener. Growers who have tried all the leading sorts for the past twenty or more years claim that they have never fruited a berry that will come anywhere near making the money that Premier will. The plants are strong, vigorous growers, very productive of beautiful glossy, rich red berries with a bright green cap, which adds much to their beauty. The berries are delicious in quality and a good shipper. Whether you want a berry for your home table, local market or for long distance shipping you cannot afford to overlook Premier. It begins ripening with the early sorts and lasts until most of the midseason sorts are through. Premier, Big Joe and Chesapeake make an unbeatable collection; berries from early to late.

BIG JOE Plant This Berry for Midseason Profits

A midseason variety that should be planted to round out the season with Premier for early and Chesapeake for late and probably the best money-making midseason variety. Does well on all strawberry soils but shows its appreciation for any extra manuring you may give it. Produces fine, handsome berries with a large, bright green cap which makes it very attractive in appearance; fruit of high quality and very productive. Makes plants freely. You should plant Big Joe.

CHESAPEAKE No Better Late Strawberry Grown

If you want an exceptionally fine, firm, late berry that stands up under long distance shipping, you should plant Chesapeake. It is the standard late berry and one of the most profitable berries grown. The berries are of extra large size, excellent quality and firm. The berries are not only large at the beginning of the season but hold up in size until the last ones are picked. It is a fancy berry in the truest sense of the word and always brings a premium over other sorts. Plant Premier, Big Joe and Chesapeake for an unbeatable collection from early to late.

AROMA. One of the best medium late varieties. Plants are very vigorous; fruit is large to very large, roundish of a bright glossy red of excellent quality and very productive. Especially good in Pennsylvania.

GANDY. An old favorite late variety. Berries are extra fancy and always sell for good prices, but it is not as heavy producer as some varieties. Valuable for its lateness.

GIBSON. Berries are large and regular in shape, color rich red. Flavor is neither sweet or sour, but just right for canning. Very productvie. For canning purposes this is hard to beat. Midseason.

KLONDYKE. Not as productive as some but they are so attractive they always bring fancy prices. One of the best shippers. The most largely planted of any early berry until Premier surpassed it.

LUPTON. This variety will arrive on distant markets looking as fresh as if it had just been picked, therefore very valuable on this account. Recommended for its looks and good shipping qualities but not for its quality. Largely planted. Late.

MISSIONARY. A reliable early market berry especially for the south. The berries are highly colored, firm, large and hold their size well throughout the season.

PARSONS' BEAUTY. Another good canner similar to Gibson.

SENATOR DUNLAP. One of the best all-around strawberries and until Premier came on the market was probably the most heavily planted of any variety. Still largely planted in Pennsylvania and some other sections. Good for dry soils. Midseason; high quality; good grower; heavy producer and an excellent canning berry.

Fall-Bearing Strawberries

CHAMPION. The most largely planted of the fall-bearers until Mastodon made its appearance, and still heavily planted. Of very best quality and not as tart as Mastodon. A good bearer of medium-size berries.

MASTODON. The largest and most in demand of the fall-bearers and for market purposes the most profitable. A little more tart than Champion. We can freely recommend both varieties.

Why Tingle's Plants Pay

It's the root growth that counts and our secret of producing it is first, a soil and climate that is especially adapted to plant growth and second, proper methods of selecting our propagating stock, fertilization and tilling. And we offer these plants to you at a very reasonable price.

Our stock will please or your money back. Is not this a fair proposition?

Such roots mean sure growth

Prices of Strawberries

	25	100	1000
Aroma	$0.30	$0.75	$4.50
